PRESS RELEASE  
FOR IMMEDIATE RELEASE  
DATE: 04/14/08

ecoSolutions Intl, Formerly 360 Interchange, Announces Listing on the Pink Sheets (ticker: ECOI)

Ashland, Oregon ecoSolutions Intl (formerly 360 Interchange, Inc.), an innovative provider of eco-friendly materials and products, is pleased to announce that it closed its Rule 504 offering in January, 2008, and its common stock is being quoted on the Pink Sheets Electronic Quotation Service under the ticker symbol ECOI, effective April 14, 2008.

"Listing ecoSolutions Intl on the Pink Sheets is another milestone in our growth strategy." said President and CEO, Bill Patridge. "With strong interest in ecologically-minded businesses and eco-friendly materials, the listing will enable us to expand our exposure to the public markets and further capitalize on our efforts to bring materials to market that can replace some of the most ecologically damaging and toxic plastics in use today."

Pink OTC Markets, Inc. ([www.pinksheets.com](http://www.pinksheets.com) and [www.otcqx.com](http://www.otcqx.com)) is one of the leading systems for electronic quotation and trading in the over-the-counter (OTC) and securities markets and the third largest equity trading venue in the U.S. It is estimated that over 5,000 companies are listed on the Pink Sheets and OTC, with an estimated 1 trillion shares traded annually by over 230 financial service firms, including the largest U.S. investment banks. Some data vendors may require the use of .PK to be added to the ticker symbol to view results for ecoSolutions Intl.

#### About ecoSolutions Intl

ecoSolutions Intl was founded in 2004, as 360 Interchange, Inc., by Bill Patridge anticipating the significant growth in high-quality, low cost production of goods in Asia. The company has evolved from being a trading company to a world-class sales and marketing organization specializing in working with large companies to help them create products that lessen the impact on the environment. Global warming is a real threat to our everyday lives and if we are to reverse the current trend we need to be actively looking for solutions that can be implemented today, as well as in the future.
